

10 mm 1/4" Hex

DIAMOND MAX™ 1/4" WET / DRY DRILL BITS

- Diamond grit drills and holesaws are designed for cutting holes in extremely hard materials such as porcelain/gres/quarry tiles, cast iron or fibreglass. These bits & holesaws guarantee superior life and fast cutting even in the hardest of materials. Can be used either on angle grinders with relevant adaptor or with a drill driver.
- Minimal water cooling: A continuous flow of water is not required to cool the bits & holesaw during cutting. Simply dip them in water before starting the cut and every 5 seconds during cutting for optimal performance.
- Clean holes: Drills clean, precise holes without any perimeter scratches.
- Superior lifetime and durability due to the high grade diamond bond and the tough alloy body which resists bending under stress.
- Easy slug removal due to the multiple access slots.
